## **ROWE Professional Services Company Wins Surveying Excellence Award**

**Flint, Michigan, March 21, 2018** – ROWE Professional Services Company received a surveying excellence merit award from the American Council of Engineering Companies of Michigan for a project on the University of Michigan-Flint campus.

ROWE completed the award-winning survey for the Regents of the University of Michigan in January 2017 to prepare for the William R. Murchie Science Building expansion. The project included the complexity of mapping 1,500 feet of underground tunnels, contending with a record snowfall, and the challenge of mapping a winding building configuration and aboveground walkways.

The American Council of Engineering Companies of Michigan is the voice of Michigan's engineering industry. Council members – numbering more than 100 firms throughout the state – are engaged in a wide range of engineering/architectural/surveying works to propel the state's economy and enhance and safeguard Michigan's quality of life.

ROWE's headquarters is in Flint, Mich.; additional offices are located in Lapeer, Mt. Pleasant, Farmington Hills, Lansing, Grayling, and the tri-cities area in Mich., and Myrtle Beach, SC.

ROWE is a full-service professional firm specializing in civil engineering, land surveying, aerial photography/mapping, landscape architecture, and community planning.
