Our team has over 60 full-time employees and Professional Surveyors licensed in 12 states that occupy six offices in Michigan and one in South Carolina. Expertise, experience, and a strong dedication to personal service characterize our survey staff. We build and maintain relationships with our clients and work as trusted partners to see projects through to completion.

For 60 years, our surveyors have worked with clients ranging from home owners to state DOT's and large private utility companies.

Our survey staff is equipped and experienced with the latest technology and safety equipment to bring the best possible solution to our clients while maintaining a safe environment for our staff.
